

# THE HEALTHY ORGANIZATION

Healthy organizations are good for business, good for people, and good for society.

At the end of the day, employees are the lifeblood of the company—driving both the revenue and the innovation. Today brings many more risks to consider, pushing the topic of health way up to the CEO.

## Why Healthy Organizations Are Important

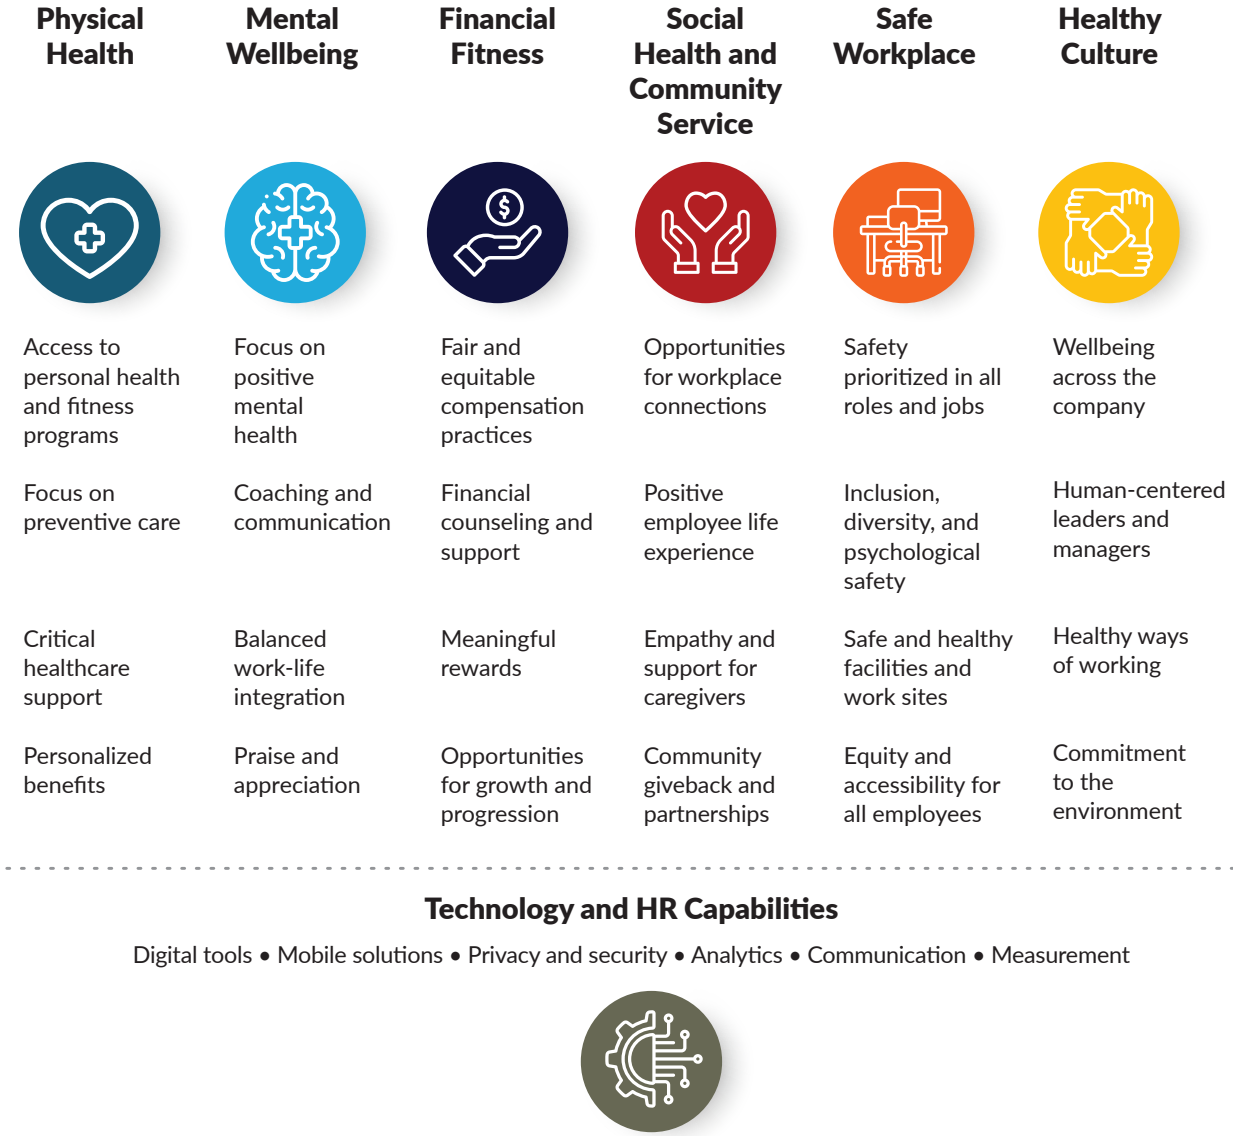

A healthy organization not only has healthy employees but also healthy business practices, job design, and reward systems. It's an organization that thrives under stress. And, it's a company with financial and business results to envy.
